## Barakat Qurtas

I am Barakat Qurtas, I was born in 1997 in Soran, I graduated from high school in Soran, and I have been living in Erbil for many years, although I was visiting Erbil early, but life in Erbil and getting to know different cultures closely has a different enjoyment relationship. In the evening, the mountains used to be our rest, but now in Erbil, the colorful view of magical evenings is our rest, since childhood, I had a passion for graphic design and typography. I've been trying to design with Microsoft Word since I was 12 years old. But at the age of seventeen, I found myself completely immersed in the profession of graphic design. I am 25 years old and do a good level graphic design and my work bears witness to my words. The current software I use is Adobe, like Photoshop, for design, illustrator for graphic design, After Effect and Premiere Pro for video editing.... He holds a number of separate, intermediate and Graphic Design Masterclass certificates - Learn GREAT Design in the field of graphic design. I work in many different places, I have worked with a lot of people at a high level, and I am always proud of the two places I have worked in, which are the Kurdistan Region Presidency and the Kurdistan Regional Government-Protocol. I am a law graduate from Erbil Polytechnic University and I would like to do more in this field in the future. I would like to be able to use my work more and dream of owning a big advertising and publishing company in the future. My hobbies are (traveling, reading books, graphic design, law, sports and the importance of cleanliness and respect).

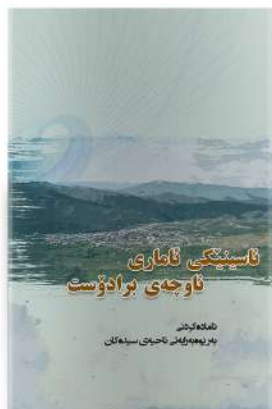

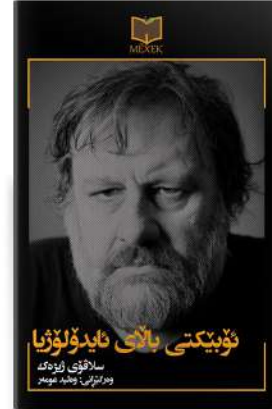

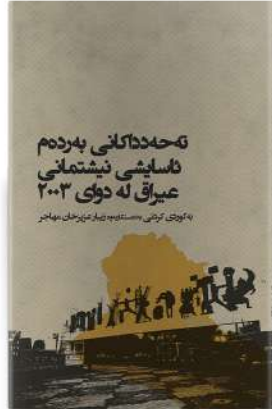

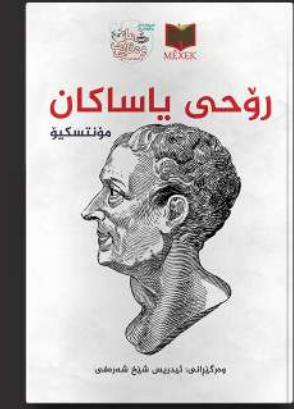

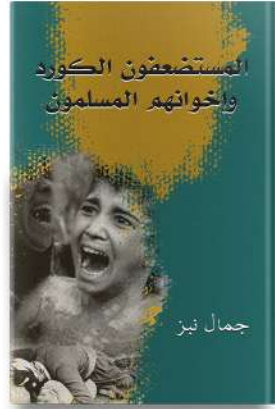

It doesn't matter where I work now or where I work in the future, but it is always important to be satisfied with others.
